

Eligibility for Membership

Eligibility for Membership is defined in the Articles of Association but in general terms the Association recognises Full Members and Associate Members.

Full Members must own and be operating at least one ductile iron pipe plant, using centrifugally cast manufacturing technology.

Membership is not limited by country and there may be more than one member from each country. There are no geographic limits and there may be more than one member from each Company. Only one member per eligible Company may vote.

Associate Members include, but are not limited to suppliers of pipe manufacturing equipment, suppliers of raw materials for pipe manufacture, pipe fittings manufacturers, individual persons or consultants. Associate Members have no voting rights and are ineligible for the office of Chairman and Secretary.
